Characteristics: *URC1* is the latest Universal Air Conditioning Remote Controller. It controls most of the air conditioning units worldwide.

Setup Instructions:

1. Make sure that Your Air Conditioner is connected to the power supply.
2. Press and hold the “SET” button for about five seconds until the mode number will start flashing.
3. Point the Remote Controller to the Air Conditioner and press the “SET” button (in order to find the correct code for Your unit).
4. Repeat pressing the “SET” button until Your Air Conditioner will start working (in most cases the Air Conditioner will beep to indicate that it received a signal from the Remote Controller).
5. **Allow one second intervals before you repeat pressing the “SET” button!!!**
6. Once You received the “beep” signal from the Air Conditioner or when it starts to operate, press the “OK” button.
7. Your Remote Controller is now ready to use.

Please Note: Each time You press the “SET” button, the Remote Controller will send a signal to Your Air Conditioner and will try to set it. Therefore, please allow one second intervals every time You press the “SET” button.

How to Install the Batteries:

	1. Slide cover to open the battery compartment.
	2. Insert two size AAA batteries.
	3. Slide cover to close the battery compartment.

Special instructions:

1. Batteries have to be changed once in six months.
2. Do not mix different types of batteries.
3. If the battery leaks, remove the battery, wipe the area with a dry cloth and replace with a new battery.
